

NOTICE TO PARENTS, TEACHERS, AND EMPLOYEES
OF THE ROCKCASTLE COUNTY BOARD OF EDUCATION

On October 22, 1986, the Asbestos Hazard Emergency Response Act (AHERA, Public Law 99-519) was signed into law. The law required EPA to develop regulations, which provide a comprehensive framework for addressing asbestos problems in public and private elementary and secondary schools. On October 30, 1987, EPA published the Asbestos-Containing Materials in Schools Rule [40 CFR Part 763 Subpart E]. This Rule requires all public and private elementary and secondary schools to inspect for friable and non-friable asbestos, develop asbestos management plans that address asbestos hazards in school buildings, and implement response actions in a timely fashion.

To carry out the above activities involving inspections, management plans, and response actions the Rockcastle County Board of Education has utilized accredited personnel. On April 30, 1987, EPA published the Model Accreditation Plan [40 CFR Part 763 Appendix C to Subpart E] required by AHERA, which specifies training, examination, and other requirements for persons who inspect, develop management plans and design or conduct response actions in schools. The Model Plan became effective on June 1, 1987.

The Rockcastle County Board of Education retained Barry W. Cooper, Inc., who completed an initial inspection to locate all asbestos-containing building materials (ACBM) and developed and submitted to the State of Kentucky an asbestos Management Plan that includes the results of the inspections. In December of 1988, the Rockcastle County Board of Education began to implement this management plan. The facilities were once again inspected in Spring of 2016.

Copies of the management plan are always available for review for those interested persons at the Administration Office at 245 Richmond Road, Mt. Vernon, KY and at the Front Office at each School any time during normal office hours.

Copies are available for duplication at a cost of 25 cents for each 8-1/2x11 page of the Management Plan.

**ROCKCASTLE ACADEMY FOR ACADEMIC ACHIEVEMENT & ADULT LEARNING CENTER
NOTICE TO SCHOOL EMPLOYEES**

In accordance with EPA regulations, the Rockcastle Academy For Academic Achievement Building & Adult Learning Center has been inspected for friable (easily crumbled) as well as non-friable (not easily crumbled) building materials which contain asbestos. Asbestos-containing materials are known to cause health problems when fibers are breathed or ingested.

Non-friable asbestos-containing building materials found at the Rockcastle Academy For Academic Achievement Building & Adult Learning Center are typically present in the following materials:

(1) 9x9 Floor Tiles

A record of the Management Plan, a diagram of the locations of friable and non-friable asbestos-containing materials and a copy of relevant EPA regulations are available in the Principal's Office for review by any employee of the Rockcastle County Board of Education.

For further information, interested persons should contact the Rockcastle County Board of Education's EPA designated person, Trent Clark.
